

DTSD Macbook Transition

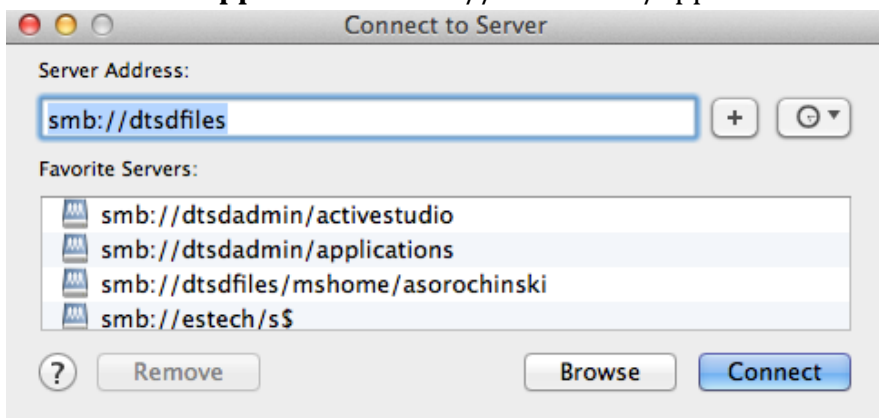

Adding File Servers

To Add File Servers, Use the following Directions

1.  Click on **Finder** on your Dock.
2. Click on **Go**  on the top taskbar.
3. Click on **Connect To Server**

4. Enter the Fileserver you want. All file servers will start with **smb://**
 - a. **Home Directories:** smb://dtsdfiles
 - i. EShome for Elem, MShome for MS, HShome for HS
 - ii. **I Drive:** is ESData, MSData, or HSData
 - b. **Student Home Directories:** smb://dtsdstudent
 - c. **Applications:** smb://dtsdadmin/applications

5. When prompted, login with your WINDOWS (email) username and password. To save addresses, click the '+'

To Add a Drive to your Dock

1. Open the Drive
2. Click and hold on the folder name at the top until it turns black

3. Drag that folder to your doc, near the trash
